COTTON MARKETS

Cables Poor Because Labor Trouble Unsettled, But Strength This Side.

Wednesday Afternoon. June 25.

Marked weakness was displayed by the Liverpool market today, and it was attributed to advices telling of failure to settle the strike, the mill owners refusing to accept terms named by their operatives. But this did not exert much influence on this side, and after a temporary dip around the opening, also helped by circulation of notices for nearly 20,000 bales in New York, an upward movement carried the list to new high levels. July in New York touched 33 cents and October 22.92, which was nearly \$5 a bale over the lowest of the session. There was considerable profit-taking on the bulge, but the reaction did not get far before supporting orders were met.

The weather was one of the factors of strength, for it continues unfavorable in most of the belt. Rains during the past 24 hours were widespread, reaching from Texas to the Atlantic coast, although in many sections they were not heavy enough to do more than stimulate increase in the boil weevil. The outlook was for continued unsettled weather, which added to the gloom.

The weekly summary of weather was

gloom.

The weekly summary of weather was regarded as builtsh, although it contained some references to satisfactory conditions, chiefly in the eastern belt. The report did not contribute much the report did not contribute much conditions, chiefly in the eastern belt. The report did not contribute much to the buying disposition, but tended to discourage selling. The fact that to-day is the last to be included in the coming bureau report on condition caused attention to be given to its probable showing, and it is generally agreed that the percentage will be low. Some guesses are for less than 70, which would be the lowest on record for the July report and several points under the 10-year average.

The peace situation did not get much notice, the idea that the terms will be signed soon having been thoroughly discounted. However, the report that there was still a slight possibility of some hitch served as a partial pretext for some liquidation on the bulge.

Liverpool was due to come sharply higher, but instead closed quite and stead ya point off to 5 up. Spots were marked off 19 points, middling to \$20.05, with sales 4,000 bales, including 3,800 American. Receipts for the day were 10,900, including 9,800 American. The strike naturally checks business in the actual, although in best informed circles it is believed there will be a settle-

upward. Among the big buyers were spot people.

News from the spot department was not of much importance, but there is a lack of snap to business. Quotations at some centers were alightly reduced and some of the reports say that demand is slack. It is quite evident that just now the trade is giving more attention to absorbing contracts than they are to buying the actual, although holders of the latter are very independent and the basis is very high. New Orleans reduced quotations 25 points, to 32.25c with sales 2,182 bales.
Futures closed 37 to 55 points up, tone steady.

New Orleans closed 15 to 60 points up, tone steady.

Liverpool is due to come 11 to 15 points

At the end of the litter in the week-business.

The unfavorable features in the week-ly crop returns increased the demand. Toward noon prices were 39 to 4f points higher than the level of yester-days finals.

The attack end of the week-ly crop returns increased the demand. Toward noon prices were 39 to 4f points higher than the level of yester-days finals.

The ateadiness was carried into the afternoon session. At 1 o'clock prices were at a net advance of 43 to 53 points.

Spots closed steady at decline of 25 points, to 32.25c with sales 2,182 bales.

Futures closed 37 to 55 points up, tone steady.

New Orleans closed 15 to 60 points up, tone steady.

Liverpool is due to come 11 to 15 points

tone steady. Liverpool is due to come 11 to 15 points In the local market sales were 1,15 bales and quotations were unchanged middling at 32,50c.

NEW YORK COTTON.

NEW YORK, June 25.—The cotton market opened steady at a decline of seven to 52 points, with active months selling 15 to 49 points below last night's cloning after the call, owing to weak cables, reports that Manchester splinners had refused to accept the settlement reported yesterday, and the circulation of July notices soon railled owing to continued wet weather in the South and expectation of a buillish weekly weather report. New Orleans and continental interests were buyers. There was some irregularity during the middle of the morning owing to the failure of a buillish weekly weather report. New Orleans and continental interests were buyers. There was some irregularity during the middle of the morning owing to the failure of a buillish weekly weather report to inspire immediate buying power, but the market soon firmed up again on the reports of heavy rains in the eastern belt, unfavorable crop advices, rumors that July notices were being stopped for export account, and trade buying. July advanced to 32,30c and October to 32,30c, or 58 and 69 points net higher.

NEW YORK June 25.—The market showed increasing firmness during the early afternoon with July selling up to \$3,00 and October to 32,30c, or 58 and 69 points net higher and into new high ground. There was continued trade buying and covering on bullish crop advices, particularly from South Atlantic states.

Futures closed steady at advance of 71 to 55 points.

actual, although in best informed circles it is believed there will be a settlement soon.

Opening for October in New York was down 12 points, at \$22.20, and it sold off to \$22.03 before the tide turned. First reports had it that only a few notices were issued, but later it proved to be nearly 20.090, which temporarily depressed the list. But soon there was stopping of them by spot interests, including representing foreign consumers, and that together with the weather and crop news sent prices scurrying upward. Among the big buyers were spot people.

News ORLEANS, June 25.—Poor cables, the denial that the Manchester strike had been settled and circulation of July notices to the extent of about 1.000 bales caused a drop of 25 to 29 points around the opening of the cotton market today. Good support met the decline, being based on the wet to applied to the cotton of the points around the opening of the cotton of the points around the opening of the cotton of the points around the opening of the cotton of the points around the opening of the cotton of the points around the opening of the cotton of the points around the opening of the cotton of the points around the opening of the cotton of the points ar

GRAIN MARKETS

Grain Prices Disposed to Sag Moderately on Theory Peace Is Discounted.

CHICAGO. June 25.—The corn market was unsettled today, varying crop conditions and a general opinion that peace had been amply discounted in advance contributing to the initial weakness. Opening prices which ranged from %c higher to %c lower with July \$1.79%. September \$1.75 to \$1.74% and December \$1.52% to \$1.52% were followed by slight declines. Later the market crept away from the low levels.

The market continued to strengthen, covering by shorts being a pronounced factor and late in the session prices were well away from the early figures. The market closed firm, to 25% net higher, with July \$1.80% to \$1.81. September \$1.54% to \$1.75% and December \$1.54% to \$1.54%.

Outs sagged with corn. After opening unchanged to %c down, with September at 68% to 68%c, the market sagged on all deliveries but later advanced fractionally with corn.

Provisions prices moved in sympathy with corn products selling from \$c\$ to 65c lower.

Later the market hardened with corn but within narrower limits.

SPANISH KING TELLS OF JOY OVER PEACE

MADRID. June 25.—"It was with ineffable joy that I received and you received the news of the certain advent of peace." said King Alfonso in his speech from the throne at the reopening of the cortes yesterday. After stating that Spain had recognized the independence of Poland, Czecho-Slovakia and Finland, the king said that Spain had mained mainfested her adhesion in principle to the league of nations and had "the honor to be lickuded in the provisory executive committee of that organization." He closed by announcing that various bills looking to national development, popular education, housing and other matters of social weifare would be introduced before the Cortea by the government.

FROM WALL STREET

Short Selling of Oils, Shippings and Other Shares Features Early Trading.

NEW YORK, June 25.-Early deal ngs on the stock exchange today indicated further short selling, particularly of oils, shippings, tobaccos and metals. This was offset in a measure by the moderate attength of secondary rails, food issues and obscure apecialities. Mexican Petroleum, Royal Dutch, Sinciair, American International, Tobacco Products and American Smelting cased from fractions to a point, while Texas and Pacific, Seet Sugar, U.S. Rubber and Writing Paper preferred gained one to 1½. A firmer tone set in before the end of the first half hour.

hour. Trading continued very light during the midsession, although the market broadened and hardened motors and oils leading at overnight gains to 1 to 3 points. Shippings also improved, but the fist fell back again on fresh pressure against steels and equipments. Call money rose to 15 per cent in the last hour, but reacted to 8 before the end. Prices were only moderately affected. Marine commen showing exceptional strength. The closing was irregular. Total sales approximated 260,000 shares.

ROUND THE TICKER

Raining hard at Greenwood, Miss-

iere, but understand 20,000 issued is New York - Clark & Co.

New York—Circulation of about 17,000 notices forced considerable early liquidation, but good demand developed and spot interests bought July. Undertone feverish under alternate covering and long liquidation—Gwathmey to Foster. New York—One firm stopped 8,000 July notices, another 2,000. No doubt all will be stopped promitive as they are chean. Expect to see hig interests trying get back the notices before the close.—Flaherty to Clark & Co.

New York-McFadden and Gwathmey

New York-Mitchell large buyer October.

New York—Weekly weather was regarded as builtsh, but had been more or less discounted. The feature has been the pronounced strength of July. Two, of not all three of the big exporting firms having headquarters in the Southwest were understood to be stopping the July notices.—Pearsall.

Memphia receipts: Corn 10, oats 4 and hay 17 cars. Hog receipts: Chicago 22,000, Omaha 16,000, Kansas City 10,000, Sioux City 12,000, St. Joseph 12,500, St. Louis 15,000

St. Louis—Receipts: Wheat 13,000 corn 82,000, cats 68,000. Shipments Wheat 15,000, corn 23,000, cats 76,000. corn \$2,000, oats \$8,000. Shipments Wheat 15,000, corn \$3,000, oats 76,000. Chicago—Foreign news suggests further buying of grain through central sources. Europe is on the brink of its new crops and several Chicago men figure their grain and provision demand in the United States will be far below expectation. Some oats damage is shown, but it will hardly reduce the crop below 1,125 million to 1,360 million. Forty per cent of the new carn crop is evidently near a 90 to 94 per cent condition and the July 1 condition should be 94 per cent. England's feed crops are revived by rain.—Wagner & Co.

New York—The technical situation of the coffee market is now proving the all important one of the moment and should prices show weakness today, it might start liquidation comparable to that of 1887, or certainly measurable by the extent the recent advance. Speculation of a wild character, both here and in Brazil, has seen fit to ignore certain commercial features and to dwell extravagantly on the distribution in connection with the small Santos crop which latter undoubtedly has been exaggerated as usual.—Fallon to Shepard & Gluck.

Chicago—The Chicago board of trade will be closed July 4 and 5.

Chicago.—Visitor just arrived says corn is looking poor in Kansas, Mis-souri, Southern lowa and South Da-kota.—Wagner & Co. Kota — Wagner & Co.

Chicago — Raily due to short covering
by small traders but response of market shows completion of liquidation and
absorption of offerings.—Babcock

Chicago.—Corn demand slightly broader; although market small one: undertone is strong.—Babcock to Clark & Co.

Chicago.—Weather bureau weekly summary says corn made very good progress on account of more favorable weather but there is considerable complaint of cutworms and army worms in central valley. Conditions continue fa-vorable for oats, except in far western states.

LOCAL SECURITIES. Quotations are unofficial, being secured from the most reliable sources and are based on the last known sale and bid.

4,286,901,75

NEW YORK, June 25.—Raw sugar stordy; centrifugal, 7.25c; time granu-lated, 3c.

New Orleans Map indicates conti led unsettled, rainy weather. Koffer New Orleans The weather map is cloudy and more rain than usual being shown, although in most sections the precipitation is light. The market may do better on these rains although lalverpool is very bad, probably because of the faiture to settle the cotton mill strike. According to this morning's cables, mill owners refused to sign the agreement which was presented by the operatives.—Shepard & Gluck.

New York—Weld says: For the present we think prices discount the news and we would wait before buying until there is some new news feature or an improvement in the technical position.

Manchester-While it had been an-nounced that the strike of cotton mill workers in Lancashire had been settled on a basis of a 48-hour week and 30 per cent increase in wages, the cotton apinners today rejected the settlement. New York.—The action of the mar-set would indicate that July notices are being stopped both here and in New York.—Shepard & Gluck.

New York-In spite July notices freely circulated, liquidation being well ab-sorbed and tone very steady -Gwath-mey to Foster. New Orleans-Only two July notices

New York-McFadden issued many notices: traders impressed by rains and yesterday's outside buying becom-ing bullish expectance bad bureau— Hubbard to Reese.

New York-Very steady cotton mar-ket on wet map and the fact that data in today's government report cannot help but indicate a very low condition. About 5,000 notices on July said to have been stopped by French commis-sion.—Carpenter & Co.

New Orleans—Consider weekly report very bullish. Speaks mostly of con-tinue mostly of poor progress and de-terioration except in the Atlantics.—

Grain.

Chicago — Receipts: Wheat 14,000 corn 300,000, oats 570,000 Shipments Wheat 17,000, corn 91,000, oats 174,000.

Chicago—The Chicago board of trade will be closed July 4 and 5.
Chicago—Commission selling coming into corn and cats. It looks like belated liquidation.—Babcock.
